I RECOMMEND A CHANGE:

1. DOCUMENT NUMBER

JIEO Circular 9008

2. DOCUMENT DATE (YYMMDD)

930630

3. DOCUMENT TITLE NITFS Certification and Evaluation Test Program Plan

4. NATURE OF CHANGE *(Identify paragraph number and include proposed rewrite, if possible. Attach extra sheets as needed.)*

JIEO Circular 9008 presently requires that all systems must be able to pack an image that is compressed using the JPEG eight bit compression algorithm.

Change paragraph 5-6 A.2 from "The system must support eight bit precision JPEG compression" to "The system may support eight bit precision JPEG compression"

5. REASON FOR RECOMMENDATION

Systems that are producers of images may not have a requirement to compress imagery data, the compression requirement should be between the sponsor and the developer and not a mandated requirement.
